MECHANIX WEAR

COLD WEATHER HAND PROTECTION

The brisk, cold air can make even the simplest task more burdensome, so we built the Original® Insulated glove to lock-in warmth and keep you moving. A comfortable layer of fleece lines the entire glove and provides insulation without sacrificing dexterity. A SoftShell™ water-resistant outer keeps the back of your hands dry and prevents the wind from sneaking-in during cold weather work. A new tapered Thermal Plastic Rubber (TPR) closure and stronger hook and loop closure provide a secure fit to the wrist when you're working outside. The fleece-lined palm features durable synthetic leather so you can take-on a multitude of jobs. Stay connected to your touchscreen devices, without removing your gloves, with TouchTec® touchscreen capable technology on your thumb and index finger.

INSULATED
A comfortable layer of fleece lines the entire glove.

SEAMLESS PALM
Seamless fleece-lined palm provides optimal dexterity.
