

M-PACT[®] 2

TAA
COMPLIANT

TACTICAL HAND PROTECTION

Managing risk also means avoiding unnecessary risks, especially those involving your personnel's hands. We took our M-Pact[®] Glove one step further by adding a molded Neoprene cuff for a seamless fit, impact absorbing molded rubber finger protection, and EVA deep ribbed accordion knuckle protection. Combine these features with those of our M-Pact[®] Glove for a tried and tested risk management tool.

EXTREME PROTECTION

Accordion design with dense EVA foam padding reduces impact.

IMPROVED GRIP

Rubberized grip panels on thumb, fingertip and palm improve control.
